

# VINDHYA

# AGRITECH

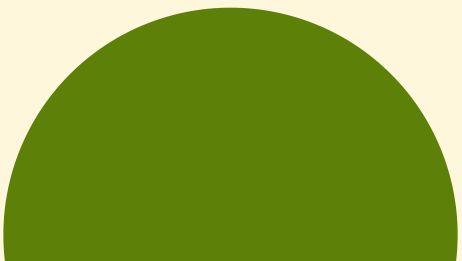

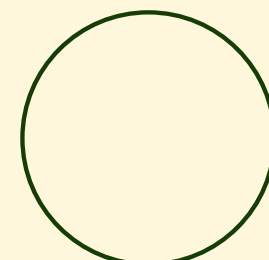

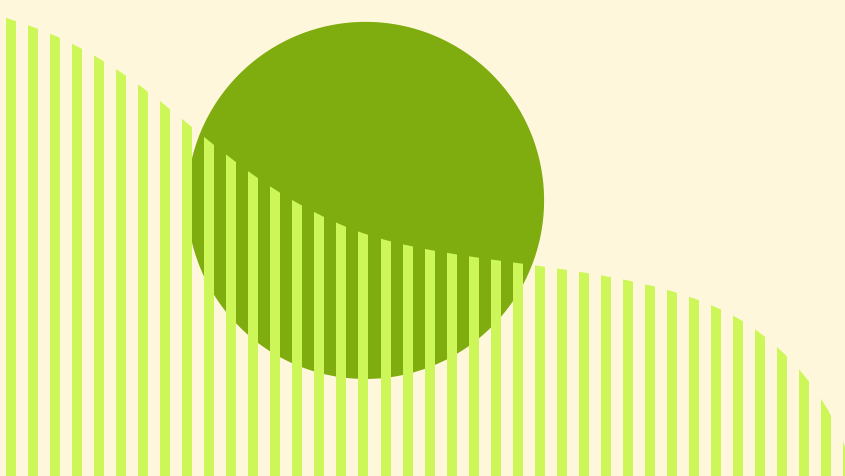

# ABOUT COMPANY

**Established in 2019, Vindhya Agritech has rapidly emerged as a trusted name in the manufacturing of HDPE pipes and fittings. Our state-of-the-art facility is equipped with cutting-edge technology, allowing us to meet the diverse needs of industries ranging from agriculture to infrastructure.**

**Our state-of-the-art manufacturing plant is equipped with cutting-edge technology, allowing us to produce HDPE Pipes and Fittings that meet the most stringent industry standards.**

# COMPANY VISION

**To be a global leader in the HDPE Pipes and Fittings industry, recognized for innovation, quality, and customer satisfaction.**

# COMPANY MISSION

**We are committed to delivering high-quality HDPE Pipes and Fittings that exceed customer expectations, ensuring sustainability and environmental responsibility in every product.**

# WHAT WE MANUFACTURE

- HDPE PIPE ●
- HDPE SPRINKLER PIPE ●
- HDPE PIPE FITTINGS ●
- MINI SPRINKLER ●
- MDPE PIPE ●
- HDPE DUCT PIPE ●

# OUR PRODUCT

## HDPE PIPE

Our HDPE pipes are designed to withstand the harshest of agricultural conditions while ensuring efficient water conveyance. With superior durability and corrosion resistance, these pipes provide a reliable solution for irrigation systems, water supply networks, and more.

## HDPE SPRINKLER PIPE

We offer top-of-the-line sprinkler pipes that are engineered to deliver uniform water distribution, optimizing crop growth and yield. These pipes are designed to withstand high pressure and are UV resistant, ensuring longevity in varied environmental conditions.

## HDPE PIPE FITTINGS

Our comprehensive range of HDPE pipe fittings includes couplers, elbows, tees, and more, designed to ensure seamless integration and leak-proof connections in irrigation and piping networks.

# OUR PRODUCT

## MINI SPRINKLER

We offer compact and efficient mini sprinkler systems that are designed for precise water delivery in smaller agricultural plots or greenhouse environments. These systems help optimize water usage and promote healthy plant growth, contributing to sustainable farming practices.

## MDPE PIPE

Our MDPE pipes are specially crafted for gas distribution systems, offering excellent resistance to cracking and corrosion. Designed to meet stringent quality standards, these pipes ensure safe and reliable gas transmission in agricultural and industrial settings.

## HDPE CONDUCT PIPE

Our HDPE conduct pipes are ideal for cable ducting applications, providing a protective conduit for electrical cables in agricultural and infrastructure projects. With superior flexibility and ease of installation, these pipes offer a cost-effective solution for cable management needs.
